

KAMILA THE KIND!

Kamila kept herself to herself. That is because she had a secret that would one day be unleashed to the world. It's true that Kamila wasn't born to an ordinary family, and yes Kamila didn't have an ordinary childhood, because Kamila was no ordinary girl – she was here to become Kamila the Kind.

All of Kamila's family were part of the Tiger Team legacy and for generations had worn the Crown of Kindness to fight the constant struggle of malicious behaviours. After years of gruelling training, Kamila was now ready to wear

the Crown of Kindness and join Tiger Team. Placing the **emerald crown** on Kamila's curled hair, the importance of responsibility passed from Father to Daughter.

A passing smile to a sad passer-by, putting others before herself and using manners are all ways in which Kamila the Kind would spread kindness to others. The Crown of Kindness helped Kamila to fight the cruellest behaviour of all – bullying. Bullying was a behaviour Tiger Team fought to banish and Kamila the kind was the strongest member to fight this by showing others affection, friendliness and empathy no matter who they were.

The Crown of Kindness helped Kamila spread kindness to everyone and its emerald light filled anyone who looked at it with kindness and compassion.
